

SKYSPECS' CEO TALKS DRONES FOR WIND-TURBINE O&M

By Michelle Froese, Senior Editor,
Windpower Engineering & Development

DANNY ELLIS, C.E.O, FOUNDER AT SKYSPECS

In this episode of WindTalk podcast, we discuss drones for wind-turbine blade and tower inspections.

Our expert guest is Danny Ellis, CEO of SkySpecs, a company that offers drone inspections for wind turbines, combined with intuitive software that allows for high-quality data capture. In fact, SkySpecs offers a 15-minute automated robotic inspection, which we touch on in our conversation.
